

DOE Directive Alert: DOE Directive Updates (8)

In May 2004, the following directives were approved for review, coordination, and resolution outside of the Directives System Process. At the time, the directives were designated as "Official Use Only" (OUO). Because of their designation, the review could not be accomplished through the Directives System Process. With the approval of the Office of Management, Budget and Evaluation, a parallel electronic system was developed which met the Departmental Directives System coordination requirements. The directives were fully coordinated by the Office of Safeguards and Security Policy with all Headquarters and field elements, national laboratories, and management and operating contractors. All comments were addressed and concurrences recorded from the Headquarters Directives Points of Contact on behalf of the commentors.

However, since that time the amount of OUO material has been reduced and the OUO portions of these directives have been separated to allow their publication on the Directives System Portal. If your official duty requires you to have access to the OUO information, a point of contact and a telephone number is available to request the information. Due to their urgency, the directives are now available on the Directives Portal. However, over the next 30-45 days, formatting changes for consistency with other directives may be made to them. No changes in text will be made to these directives as approved by the Deputy Secretary, and they should be fully implemented as written. For additional information, contact Geralyn Praskievicz (Internet address, GERALYN.PRASKIEVICZ@hq.doe.gov; phone, 202-586-4451).
